eNotice Campus
can benefit your
school.**

eNotice Campus Alert System

eNotice Campus is a hosted web-based notification system for schools. Notices can be sent via email and text message from anyplace at anytime. Reach your staff, students and parents quickly when you need to notify them about an emergency, closing, delay or school events.

eNotice Benefits

eNotice Campus allows non-technical users to manage and send notices. No special skills are required. eNotice provides a easy to use interface that requires only internet access.

Benefits for School Administration:

- Is easy to use
- Protects staff and students and notifies parents
- Setup is easy
- Priced affordable for any size school
- Delivers message quickly
- Students, staff and parents self-manage their accounts
- Post up to date information on school bulletin board
- Multiple schools can be easily managed

Benefits for Staff, Students and Parents:

- Peace of mind to know that when an emergency happens, they will be informed
- Receive notices wherever they are
- Subscribers can manage their own accounts by changing their cell numbers, emails or subscribed groups
- Subscribe to one or multiple schools
- Subscribers can also receive messages via RSS feed, yahoo, google or AOL page

eNotice Features

- Groups can be setup so subscribers get the information they are interested in
- Departments can be assigned to groups to allow bill back to departments
- Bulletin Board feature allows administrators to send a single message then post up to date information on the school bulletin board
- Reporting feature allows administrators to see activity by department, group or administrator
- Subscriber import can be performed on initial setup or you can require subscribers to opt-in manually. Opt-in emails can be sent when subscriber import is performed
- Quick text feature allows messages that are sent often to be saved and sent with just a couple clicks of the mouse
- Administrators can be set up to allow them to send messages to all or specific groups only

How it works

Administrator logs into eNotice Campus. Selects send message. Selects a quick message or types in the message. Chooses to send to all groups, specific groups or subscriber type and clicks send message. It's that simple.

Dashboard

eNotice dashboard gives an administrator a quick glance at recent activity, quick access to make changes to the bulletin board and an overview of the account.

Quick Messages

Quick messages let you save and send recurring messages like school closings, delays and staff meeting reminders. Simply select the message and send.

Send Messages

One screen gives you everything you need to send a message quickly. You select who to send the message to, how the message is to be sent and how long the message will be available to view.

Message History

You can view the message logs and error logs from the message history screen. See who the message went to and who didn't receive the message because of an invalid email address or cell number.
